

High heating bills? Your problem may be overhead.

Up to 70% of your home's heat loss may be through your attic. Adding another layer of insulation in your attic can help cut your electricity bills.*

Barbara Martinez, Senior Administrative Assistant
*If qualified.

And there are other ways you can stop your money from going through the roof. Find out more by calling one of the energy-saving companies listed on the right or visit entergytexas.com/savemoney.
