SUBST. R. 25.181(i)(6)(A)-(D).

ARTICLE V - PROJECT IMPLEMENTATION

- 5.1 The Project Sponsor agrees that if any portion of the equipment or conditions at the Project Site(s) in place before the installation of the Measures, and such equipment or conditions are an integral part of the Measures, has been altered prior to the execution of the Agreement, or if any of the proposed Measures have been installed prior to the execution of the Agreement, the Project, or the affected portions thereof, will be disallowed.
- 5.2 The Project Sponsor agrees, on and after the Effective Date, to use all reasonable efforts to implement the Project without undue delay and otherwise in accordance with the terms of the Contract Documents. To the extent of any conflict between this Agreement and other Contract Documents, the terms of this Agreement shall prevail.
- 5.3 Measures shall be designed, constructed and installed in a good and workmanlike manner only with materials and equipment of appropriate quality, and, in any event, in accordance with Prudent Electrical Practices.
- 5.4 Irrespective of the Effective Date, installation of the Measures must be completed no later than November 30th of the current funding year. If the Project Sponsor does not complete the installation of the Measures by such time, absent a Force Majeure event, the Project Sponsor's actions or inactions shall constitute a breach of contract unless the Project Sponsor requests, and Entergy, in its sole discretion, grants to the Project Sponsor an extension of time to complete installation of the Measures.
- 5.5 Project Sponsor must document the Measures actually installed at each Project Site in a Project Implementation Report. Project Sponsor must complete and submit Project Implementation Reports to Entergy on a periodic basis.
- 5.6 Project Sponsor must complete sufficient Measure installations to comply with the following milestone schedule:
 - 5.6.1 Measure installations resulting in at least forty percent (40%) of the Project Sponsor's total estimated incentive payment must be completed by June 30 of the program year. Entergy reserves the right to withdraw some or all of the Project Sponsor's reserved incentive funds for failure to achieve this milestone.
 - 5.6.2 If a Project security deposit is collected, it will be returned to the Project Sponsor after completion of installations accounting for at least seventy-five percent (75%) of the Project Sponsor's estimated incentives. Entergy will liquidate the Project security deposit if installations accounting for at least seventy-five percent (75%) of the Project Sponsor's estimated incentives are not completed within the installation period. In the event of liquidation, Project Sponsor will not receive any reimbursement or rebate of the Project security deposit.
- 5.7 Within 30 days of receipt of the Project Implementation Report, Entergy shall complete an inspection of the Measures installed at the Project Site(s) in accordance with the International Performance Measurement and Verification Protocol. This inspection shall be used to determine whether the Measures were installed and are capable of performing their intended function.
- 5.8 Any view, inspection, or acceptance by Entergy of the Project Site(s) or of the design,

construction, installation, operation and maintenance of the Measures is solely for the information of Entergy. In performing any such inspection or review or in accepting the Measures, Entergy makes no representation or warranty whatsoever as to the economic or technical feasibility, capability, safety or reliability of the Measures, their installation by Project Sponsor or their compatibility with the Customer's facilities.

- 5.9 If Entergy reasonably determines that the Measures at the Project Site(s) have been installed and are capable of providing Demand Savings and/or Energy Savings in material compliance with the Contract Documents, the Project Implementation Report will be approved as submitted. The Estimated Demand Savings and Estimated Energy Savings attributable to the Measures documented in the approved Project Implementation Report will be used for purposes of calculating the Incentive Payment in Article VII.
- 5.10 If Entergy determines that the Measures installed at the Project Site(s) have not been installed or are not capable of providing Demand Savings and Energy Savings in material compliance with the Contract Documents, then a reduction or, if applicable, elimination of Estimated Demand Savings and Estimated Energy Savings will be required for purposes of calculating the Incentive Payment in Article VII. The Estimated Demand Savings and Estimated Energy Savings attributable to the Measures documented in the Project Implementation Report will be reduced or, if applicable, eliminated by the percentage of Measures that failed to pass inspection.

ARTICLE VI - MEASUREMENT AND VERIFICATION

- 6.1 The Project Sponsor shall measure and verify the Demand Savings and/or the Energy Savings that result from the Measures installed as a part of the Project as set forth in the Measurement and Verification Plan in the Project Application.
- 6.2 Within thirty (30) days of the conclusion of the Performance Period, the Project Sponsor shall submit for review and approval a Savings Report to Entergy documenting the Measured Energy Savings and Measured Demand Savings for the Performance Period. If the Savings Report is deficient, Entergy will provide, in writing, notice of the deficiency, and the Project Sponsor shall revise and resubmit the Savings Report until it is approved by Entergy. Any necessary revisions shall be performed in the time-period specified by Entergy in the notice of deficiency.
- 6.3 The Measured Demand Savings and/or Measured Energy Savings attributable to the Measures documented in the approved Savings Report will be used for purposes of calculating the Performance Payment in Article VII, below.

ARTICLE VII - INCENTIVE PAYMENTS

- 7.1 Entergy agrees to make incentive payments to the Project Sponsor based upon the Estimated Energy Savings and/or Estimated Demand Savings and the Measured Energy Savings and/or Measured Demand Savings, as the case may be, derived from the Project. The total incentive payment due to the Project Sponsor will be calculated by multiplying the Estimated Demand Savings and/or Estimated Energy Savings and the Measured Energy Savings and/or Measured Demand Savings, as the case may be, by the applicable incentive rate associated with the Measures installed at the Project Site.

HTR SOP Incentive Rate for 2009	
Demand Savings Incentive Rate	\$430 per kW
Energy Savings Incentive Rate	\$0.163 per annual kWh

- 7.2 The total incentive payment for a HTR SOP Project is subject to a load factor cap and shall not exceed \$1,140 per kW of Demand Savings.
- 7.3 No more than sixty-five percent (65%) of the Demand Savings and Energy Savings for the Project may be derived from lighting measures. If a project consists of lighting measures only, compensation shall not exceed sixty-five percent (65%) of the total incentive payments due to the Project Sponsor.
- 7.4 If the Project consists of Measures for which there exist, and the Project Sponsor has elected to use, deemed or stipulated demand and energy savings, then Entergy will make one incentive payment based on Deemed Demand Savings and/or Deemed Energy Savings for the Measures approved in the Project Implementation Report. Otherwise, the total incentive payment shall be payable in two installments as set forth hereinbelow.
- 7.5 Upon completion of installation of the Measures and review and approval of the Project Implementation Report, Entergy will make an incentive payment (the "Implementation Payment") within fifteen (15) days. The Implementation Payment will be forty percent (40%) of the total incentive payment due based upon the following equation:

$$\text{Implementation Payment} = 0.4 \times ((\text{Estimated Demand Savings} \times \text{Demand Savings Incentive Rate}) + (\text{Estimated Energy Savings} \times \text{Energy Savings Incentive Rate})).$$

- 7.6 At the conclusion of the Performance Period and upon Entergy review and approval of the Savings Report, Entergy will make the second incentive payment (the "Performance Payment") within thirty (30) days. The Performance Payment will be the remaining amount of the total incentive payment due based upon the Measured Demand Savings and Measured Energy Savings. The amount of the Incentive Payment shall be calculated using the following formula:

$$\text{Performance Payment} = ((\text{Measured Demand Savings} \times \text{Demand Savings Incentive Rate}) + (\text{Measured Energy Savings} \times \text{Energy Savings Incentive Rate})) - \text{Implementation Payment}$$

In the event that the above formula results in a negative Performance Payment, then the Project Sponsor will refund that amount to Entergy within thirty (30) days of receipt of an invoice from Entergy. If Project Sponsor fails to remit payment within said time period, Entergy reserves all rights to take all legal action necessary against Project Sponsor and shall be allowed to collect all reasonable attorney's fees, costs and interest at the maximum rate allowed by law.

- 7.7 Under no circumstances will Entergy make a total incentive payment (i.e., the sum of the Implementation Payment and the Performance Payment) that is more than 100% of the total estimated incentive payment specified in the Project Application.

ARTICLE VIII - AUDIT AND RECORDS

- 8.1 Project Sponsor or its assignee shall keep and maintain accurate and detailed records and documentation relating to the Project and its associated Energy Savings and Demand Savings under this Agreement for a period of not less than three (3) years beyond the termination of this Agreement. During the retention period, such records shall be made available, upon reasonable notice, for inspection during normal business hours by Entergy or any governmental agency having jurisdiction over the HTR SOP or any portion of the Project.

ARTICLE IX - INSURANCE

- 9.1 The Project Sponsor represents and agrees that it will carry all statutorily required insurance for the protection of its employees and that each of its subcontractors will carry such insurance for the protection of their respective employees. Prior to commencement of installation, the Project Sponsor shall furnish to Entergy a certificate or certificates of insurance indicating the Project Sponsor compliance with this paragraph and stating that the insurance described therein shall not be canceled or terminated except on thirty (30) days written notice to Entergy. Additionally, the Project Sponsor represents and agrees that Entergy and its affiliated and associated companies shall be named as an additional insured on all policies (except worker's compensation) in the amounts of coverage therein stated and that all policies will include a waiver of subrogation naming Entergy and its affiliated and associated companies, with the appropriate certificates of insurance evidencing such that Entergy has been named as an additional insured on such policies and that such policies include a waiver of subrogation naming Entergy. The Project Sponsor shall furnish evidence that such policies have been issued in accordance with the requirements of this paragraph by furnishing copies of such for Entergy's inspection.

To the extent necessary to permit Entergy to enforce any term, clause, or condition of this Agreement, the Project Sponsor agrees that with respect to any Claims brought against Entergy Group, the Project Sponsor will and does hereby waive as to Entergy Group any defense it may have by virtue of the workers' compensation laws of any state.

ARTICLE XI - PERMITS, LICENSES AND COMPLIANCE WITH LAWS

- 11.1 Project Sponsor represents and warrants that prior to beginning installation of Measures, Project Sponsor will, at its own cost and expense, obtain all permits and other authorizations from governmental authorities as then may be required to install, construct, operate and maintain the Measures in question and to perform its obligations hereunder. During the term hereof, Project Sponsor will obtain all such additional governmental permits, licenses, and other authorizations when required with respect to any of the Measures under this Agreement. If requested by Entergy, Project Sponsor shall furnish to Entergy copies of each such permit, license or other approval promptly following receipt thereof. Project Sponsor shall maintain in full force and effect all such governmental permits, licenses and other authorizations as may be necessary for the construction, operation or maintenance of the Measures in accordance herewith.
- 11.2 Project Sponsor shall be responsible for all royalties, fees, or claims for any licensed, copyrighted or similarly protected intellectual property, device, process or procedure used, installed, or provided by it. Project Sponsor shall defend and indemnify Entergy in any suit that may be brought against Entergy and shall hold Entergy harmless from any liability or infringement of any such intellectual property used by Project Sponsor in the implementation of the Project.
- 11.3 All work performed by Project Sponsor in connection with the implementation of the

Project and all Measures installed or maintained by Project Sponsor shall conform to all applicable laws, statutes, ordinances, rules, regulations, and decrees of any governmental or administrative body having jurisdiction over the HTR SOP or any portion of the Project, including without limitation, Occupational Safety and Health Administration (OSHA) regulations, the National Electric Safety Code (NESC), the National Electric Code (NEC) and Sections 752.001 – 752.008 of the Texas Health and Safety Code.
