---

**MISCELLANEOUS ELECTRIC SERVICE CHARGES**

---

**I. APPLICABILITY**

A charge shall be assessed, or credit provided, for the activities and services listed below in accordance with the provisions and prices herein.

**II. DESCRIPTIONS**

**Trip Fee**

A charge of twelve (\$12.00) will be made when Company is required to dispatch an employee to a customer's location.

**Connection**

A charge of eighteen dollars (\$18.00) per event will be made for those services provided in order to connect a Customer's new point of delivery to the Company's electric distribution system or to make connection changes to a Customer's existing point of delivery to the Company's electric distribution system.

**Reconnection**

A charge of twelve dollars (\$12.00) per event will be made for those services provided in order to reconnect a Customer's point of delivery to the Company's electric distribution system where service has been terminated or suspended as a result of any electric service bill in arrears, failure of Customer to comply with Terms and Conditions Applicable to Electric Service, prevention of fraud and abuse, or discovery that the Company's property has been subject to damage, interference or tampering. In unusual cases of abuse or tampering, Company will charge all reasonable out-of-pocket expenses necessary to restore its facilities to original condition. Service will not be reconnected until Customer pays the total amount of any funds due the Company, plus the above charge(s).

**Seasonal Reconnections**

A charge of fifteen dollars (\$15.00) per event will be made for those services provided in order to reconnect a Customer's summer home, camp, or similar location to the Company's electric distribution system where service has been disconnected at the request of the Customer.

**Non-Sufficient Funds Charge**

A charge of twelve dollars (\$12) will be made for each check received from Customer and not honored for payment by Customer's financial institution.

### **Temporary Metered Service Connection**

A charge for temporary service connection and meter installation will be made where distribution lines are readily available and the installation of additional poles and lines is not necessary to provide service to the Customer, as follows:

- Twenty-five dollars (\$25) on each occasion for residential construction (see New Residential Construction for possible application)
- Greater of forty-five dollars (\$45) or estimated Company net costs, on each occasion for other temporary service.

Where distribution lines are not readily available, or where additional poles or lines are necessary, charges will be derived based upon the Company's extension policies. Customer will be placed on appropriate Company rate schedule(s) for electric service.

### **Payment by Drawdraft and Levelized/Equal Payment**

A one dollar (\$1.00) per month credit will be provided when Customer currently authorizes drawdraft payments at the due date for services rendered by Company and the drawdraft is honored for payment in full, and the Customer also has either levelized or equal payment of billing.
