IV. SERVICE CONDITIONS

The charges under "Rate Group A" include the cost of installation, maintenance, energy supply, and control by the Company of standard street light fixtures and lamps mounted on existing wood poles.

Under Rate Groups A and C a $25.00 replacement fee will apply for all replacements of functioning lights that result in an increase in wattage.

Service under Rate Group D is supplied based on the Customer’s statement of the type of fixture and wattage of the bulb to which service is supplied. It is the Customer’s responsibility to notify the Company in writing of any changes to these Customer-owned facilities.

Upon fixture failure, High Pressure Sodium (HPS) street light fixtures will be replaced with like fixtures and Mercury-Vapor street light fixtures will be replaced with an equivalent HPS cobra head light fixture unless Company is directed in writing by the Customer to use a different type light fixture.

Company shall use due diligence in the operation and maintenance of the equipment and facilities so as to furnish the Customer, as nearly as may be, a continuous and uninterrupted street lighting service, as herein provided; but it is expressly understood and agreed that the Company shall not be liable to the Customer, or anyone else, by reason of or for any claim or damage resulting from the failure of the Company to keep said street lights, or any one or more of them, burning during the hours designated, where such failure is the result of injunction, fire, strike, riot, explosion, flood, accident, breakdown, vandalism, failure of City to furnish adequate police protection, acts of God or the public enemy, or other acts of conditions reasonably beyond the control of the Company. Further, the Company shall not be held liable to the Customer or anyone else, for any matter arising out of or damages or claims resulting from the failure, for any cause, of any one or more of said street lights herein specified to be burning during the hours designated.

Company may remove a street light which has been repeatedly damaged or vandalized by a third party. Four repair requests within a three month period is considered repeatedly. In lieu of removal, Customer may pay, in advance, the cost to repair or replace the street light.

V. AMOUNT DUE AND PAYMENT

The past due amount for service furnished for which payment is not made within sixteen (16) days of the billing date shall be the monthly bill, including all adjustments under the rate schedule and applicable riders, plus 5%. The 5% penalty on delinquent bills shall not be applied to any balance to which the penalty has already been applied. If the amount due when rendered is paid prior to such date, the monthly bill, including all adjustments under the rate schedule and applicable riders, shall apply. If providing service to the State of Texas or to municipalities or other political subdivisions of this state, Company shall not assess a fee, penalty, interest or other charge to these entities for delinquent payment of a bill.
